“ We are very fortunate in this area to have C-K Hospice providing such caring and compassionate support during an extremely difficult time. My husband passed away in Victoria Hospital, London, and while the medical care was excellent, it was a cold impersonal environment. I think that if Hospice had been available then, the assistance provided would have been so very beneficial and comforting. That is why I have made a bequest to C-K Hospice in my Will, knowing it will help provide support and assistance for those experiencing end-of-life care of a loved one. ”
